#	DESCRIPTION
1	Large Image position from the product record or replaced when shopper clicks on a swatch in position 2. If another product image or image of the product in that color on a model is available it will display in position 1 and display a large image in position 3, if available.
2	Swatch images.
3	Large Detail images that are seen only when available and shopper uses zoom tool. Could be a model or alternate image detail.
4	Alternate images of a product, if available.
